

## **Tool list: Fine Wire Work**

Each participant is asked to bring the following materials and equipment:

1. Some pure gold, pure silver (20 gram of each) in casting grains and optionally some platinum
2. A square open melting crucible (4x4 cm)
3. Fine, pointed tweezers
4. Fine pliers without teeth
5. Magnifying glasses
6. A scraper
7. Fine escapement needle files
8. Normal needle files
9. A few bobbins (like those for fishing line)
10. A set of basic hand tools
11. A G-clamp (should open at least 70 mm)

Each student will be supplied with the material necessary to build the wire-drawing machine, at the price of costs (approx. 20 €). The devise will be taken home by the participant.
