

Tool list: Platinum

Each participant is asked to bring the following materials and equipment:

1. A set of escapement files for platinum
2. Tweezers
3. A pair of dark protective goggles for welding
4. Some medium platinum solder
5. A few grams (10 or more) of platinum, either pure or alloyed with copper or ruthenium
6. Piercing saw and fine saw blades (4/0)
7. Pliers
8. A bench hammer
9. A set of basic hand tools

Each student will be supplied with an explanatory text with illustrative images and diagrams and a complete CD-ROM by Giovanni Corvaja.
